RELATING TO DEFICIENCY APPROPRIATIONS.

The Speaker laid before the House, for consideration at this time,

S. C. R. No. 2, Relating to deficiency appropriations.

Whereas, Under the Constitution of the State of Texas, it is the duty of the Legislature to provide revenues, and to make appropriations therefrom, for the economical administration of the government; and

Whereas, Under Section 49 of Article 3, it is further provided that: "No debt shall be created by or on behalf of the State, except to supply casual deficiencies of revenue * * * and the debt created to supply deficiencies in the revenue shall never exceed in the aggregate at any one time two hundred thousand dollars"; and

Whereas, By practice and precedent, and through a construction which is not in keeping with the clear intent and plain meaning of this provision of the Constitution, the executive department of this State for a number of years has been creating debts to supply deficiencies in the revenue in the sum of one million dollars and more; now, therefore, be it

Resolved, That the Senate of Texas, the House of Representatives concurring, doubt the constitutionality and question the wisdom of this practice on the part of the executive department of our State government in assuming powers which the Constitution places with the legislative department. To extend the power of the executive department of the government so that debts may be created to exceed in the aggregate at any one time the sum of two hundred thousand dollars, running up into the millions of dollars is to cast an undue and improper burden upon the legislative de-

partment of raising revenues to pay debts which it did not create. When it becomes apparent to the Governor of this State that the revenues provided by the Legislature and the appropriations made therefrom are insufficient to meet the just and proper demands of an economical administration of the government, "and the debt created to supply deficiencies in the revenue" exceeds "in the aggregate at any one time two hundred thousand dollars," it is the duty of the Governor to convene the Legislature in special session to consider and determine what additional revenues shall be raised and the nature and amount of appropriations to be made therefrom for the economical administration of the government.

The resolution was read second time. Question recurring on the resolution, yeas and nays were demanded.

The resolution was adopted by the following vote:

Yeas—98.

RELATING TO FEES REQUIRED OF
UNIVERSITY STUDENTS.

Mr. Masterson offered the following resolution:

Whereas, The enrollment of students in University of Texas now numbers 4510 pupils with good prospects that the number will reach 5000; and

Whereas, It has been reported to members of the Legislature that students entering the University are, as a condition precedent to their enrollment, required to pay as follows:

| | |
|----------------------------------|---------|
| Matriculation fee | \$15.00 |
| Library deposit | 7.00 |
| Service and maintenance fee..... | 20.00 |
| Students' activity fee..... | 10.50 |
| Gymnasium fee..... | 1.00 |

and further fees if students elect to take certain courses; and

Whereas, It has been further reported to members of the Legislature that similar conditions and other unsatisfactory conditions exist at the A. and M. College of Texas; therefore, be it

Resolved by the House of Representatives of the Thirty-ninth Legislature, First Called Session, That immediately upon the passage of this resolution a committee of five members of the House be appointed by the Speaker, whose duty shall be to institute and conduct a comprehensive inquiry into the above reports and to ascertain what necessity exists for charging such fees and how the proceeds so collected are expended, and what irregularities, if any, exist in the conduct of the affairs of said two institutions; that said committee is hereby instructed to report their findings to this session of the House to the end that the exacting of high charges against the student may be eliminated and proper provision be made for the support of said institutions out of the general revenue or provide for some other method of raising sufficient revenue.

The resolution was read second time.

Mr. Jacks raised a point of order on further consideration of the resolution at this time on the ground that the time for consideration of resolutions has expired.

The Speaker sustained the point of order.

Reasons for Votes.

Reasons for voting against 3-cent gasoline tax.

Second. I believe that there are other economical and legally sound ways of building our public school system other than a direct tax on a particular class or commodity.

Third. The proposed gas tax is legally unsound for the reason it was never in the purview of the founders of the Constitution that a necessity should be specially taxed for the support of schools.

Fourth. I announce the principle, that the schools should and can be supported only by general taxation or special taxes only from luxuries and not necessities.

Fifth. I consider in the economic development of our State that gasoline today is a necessity.

Sixth. I consider the gas tax as limited under the present constitutional requirements, a dangerous doctrine and one which, with our political system in vogue, dangerous to our welfare.

Seventh. It is well established as a basic fact that this sort of taxation is a tax on the consumer and not the producer or refiner.

Eighth. In Texas, the majority of cars are owned by people of small means

and the tax will raise the cost of operation and thus injure a great class of our people, namely, the men of small means.

JACKS.

I vote "yea" on House bill No. 291 because when the question is one between the powerful selfish groups and our school children I shall always take the side of our schools.

DANIELS.

I vote against House bill No. 291 for the reason it is grossly discriminatory and its validity is doubtful, and if the schools and highways are to depend on this bill for revenue, they may be hampered much more than under present conditions. I believe such a tax should be paid by each consumer at the time and place of purchase and then the validity of the bill would not be jeopardized on account of interstate shipments.

SMITH of Travis.

MOTION TO TAKE UP HOUSE BILL NO. 291.

Mr. Dale moved that the constitutional rule requiring bills to be read on three several days be suspended and that House bill No. 291 be placed on its third reading and final passage.

The motion was lost by the following vote (not receiving the necessary four-fifths vote):

Yeas—96.

Mr. McDonald moved to reconsider the vote by which the bill was passed, and to table the motion to reconsider.

The motion to table prevailed.

Reasons for Vote.

I vote "nay" on House bill No. 291 because I am opposed to the levy or increase of special taxes. I think the money should be appropriated out of the general revenue to increase the scholastic apportionment to \$15 per capita and am sure it will be done if this bill is not enacted into law, and besides, I am doubtful that the proposed increase in the gasoline tax would provide the money needed for the schools for the present term.

DAVIS of Dallas.

I voted against House bill No. 291 because it means a net increase of almost five million dollars on the people of Texas.

YOUNG.

I voted against the three-cent gasoline tax on engrossment because it is my opinion that two cents is sufficient to maintain the highways and supplement the school fund. However, the House decided otherwise, and I am unwilling to leave the tax at one cent, and believe that three cents is an excessive tax. Nevertheless, I voted for three cents on final passage rather than cripple the school fund.

PURL.

No equitable distribution of county funds, not shown to be necessary at this time. The bill provides for school funds, and I am for the schools, but there are other means for providing for the common schools.

WOODALL.

I voted "nay" on House bill No. 291 due to the fact that it would not raise the rural school aid to \$15 per capita, and that I deemed an increase of 200 per cent in the gas tax is severe penalty for those using gasoline and using the roads, especially as the Highway Department would receive more than a

million dollars less than they would under the one-cent tax.

I am heartily in favor of a \$15 per capita rural school appropriation, but I am against the penalizing of a particular class of people to achieve this result, as I think education is a factor which should be dealt with and the expense borne proportionately by all the people instead of a certain class.

KAYTON.
